PROGRAM

Arrival:

August 2023

Age on Arrival:

16

Duration:

Academic Year

Student ID:

FL23LV01-11

Allergies/Special Diet:

No / None

Religion:

None

Student Letter

Hello, I'm Ralfs. I have five people in my family, my mother, my father, and my two brothers. Both of my brothers play soccer but I don't play soccer although I don't mind playing with them. I enjoy making food I have never eaten or made before, I don't know if my family is really hungry or actually like what I make but every time I make something they seem to enjoy it and ask for more.

In my city there are many culture and sport centers and personally I think here are one of the best views in country. Also I enjoy going outside with friends we usually talk or play basketball, soccer, if we ever do homework together I am the one who explains it to them. In summer I ride a bike with friends to beach to swim, one of my favorite methods to get around in summer is to ride a bike.

The favorite thing I like to do is traveling, when you travel you meet new people, see new places and gain new experiences. When there isn't anything going on in the city and I am totally free I like to learn about things connected whit computers or engineer. I want to become engineer and my plan is to study in technical university. My father is an engineer and ever since I was a little kid I have wanted to become an engineer as well. In U.S. I wanna gain new experiences, friends and see how things are outside my home country, how life is in a different country. Also there are soo many great engineers from the U.S., maybe I can learn something new about engineering.

Would you like to host this student?

Call (919) 285-2693 or email info@borderlessfriends.org

Borderless Friends Forever promotes world peace through cultivating opportunities for cultural and educational exchanges. These exchanges allow people to learn more about each other's core values. We bring the international traveler and the host family together to create meaningful relationships through which we celebrate our differences and similarities.
