## Student Letter

My name is Isabella, i'm 16 years old (will be 17 when i'm arriving :) ) I am excited about the opportunity to experience a new culture, learn new things, and make new friends. My goal during my exchange year is to have a memorial time that i will never forget. Doing an exchange year has been a huge dream of mine an it's finally coming true, which i can't really believe. And now more about myself. I am an active person who loves to stay fit and healthy. In my freetime I do judo. I have been practicing judo for several years now, and it has taught me the importance of discipline, focus, and perseverance. Apart from judo, I also love to dance. I am a dance class teacher and have been teaching kids for the past one and a half years. Dancing has been a passion of mine since childhood, and I love to express myself through different dance forms. During my exchange year I would really like to try out cheerleading.

In my free time I also really enjoy baking. I've been teaching myself to bake for about a year now and I often try out different kind of the cakes. I particularly enjoy this because it never get boring and I can always try out new flavors and designs. I can let my creativity run free and either try my own creations or be inspired by the Internet. This allows me to make my friends and family members happy when I bake for them for partys and birthdays.The amazement from them and a thank you are a great compliment for me. If you like I can also maker a cake for you of course.
