Student Letter

I'm Arianna and I'm going to talk about my life. First of all I love sports like tennis and volleyball. I really enjoy travelling with my family and friends. I like going to concerts a lot and also listening to music. Last summer I went to a concert alone by train. I love hanging out with my friends and spending some time with them. I love going to the cinema but I prefer going shopping. In my childhood I used to be a scout, I did it for 8 years. This experience helped me socialise because I met lots of people and we instantly became friends. I can't wait to go to the USA and I'm so excited about it, I hope that I'll make a lot of friends there. When I asked my parents if I could do an exchange year they were super happy and they said yes, they are also a little bit sad because they won't see me for ninth months.

Usually during the summer my family and I go to our home at the beach and we always spend August there. In June we go on a trip somewhere like last summer we went to Greece. Last July I went to a college in a city in England: Bath, I had so much fun there and I met lots of people who became my friends.

I'm a cheerful, fun and extrovert person, I like to discover new things and make new experiences.

I can't wait to meet you and spend some wonderful times with you. I hope this experience is great not only for me but for you also.
