Student Letter

Firstly my name is Thy eang which is my first name or Eang. I'm 15 years old.

In my spare time I like playing sports including soccer and volleyball which are my favorite ones and so on. In my break time at school and mostly P.E time I usually play soccer with my classmates and friends. It's a fun activity that we do in common. Beside from school at home I also play this kind of sports with my family, sometimes in our leisure activities. Playing sport is also an exercise that makes me sweat and provides me with healthy health. I also like reading and watching biography stories. I've read a few stories of biography books. I don't like having a haircut frequently. I usually have a haircut once a month because it grows really fast. My daily routine isn't remarkable from the other. In my daily day I study for about eight hours a day on weekday and weekend I have no class on Sunday. On that day off I usually spend time with my family or we would go somewhere on that day off.

Living and studying in the United States is what most people desire to be. I also want to study in America because it's my dream since I was a child. In the U.S has many population and people are very intelligent. Also teachers teach students with a high education and make students easy to understand and they engage in studying. Also I want to meet new friends around the world and share my culture, tradition and also to learn about their culture so I can increase my Knowledge.

Borderless Friends Forever
