Student Letter

My name is Krystian and I am thrilled to have the opportunity to introduce myself to you. I am 16 years old, turning 17 soon, and live in Poland. We have a cat, whom I love to spend time with. I consider myself to be very outgoing, sociable, and independent. I enjoy spending time with friends, and I am always looking for opportunities to grow both personally and professionally. I am also ambitious and focused on achieving my goals. I love having clearly defined objectives and working hard to accomplish them. I have always dreamt of participating in a student exchange program, and I am excited to have the opportunity to potentially live in the United States. I am fascinated by the culture and school system, and I believe that participating in a student exchange program is one of the most amazing opportunities available to young students. I am also very interested in visiting various cities in the United States, such as New York City. I am confident that I will get along well with my host family and hope that we can maintain a lasting relationship even after my return to Poland. While I may initially experience some shyness, I am confident that I will overcome any language barriers and embrace the American culture with open arms. In terms of my personal life and aspirations, soccer has been a significant part of my life for the past eleven years. My ultimate goal is to become a professional soccer player.
