Student Letter

Hi my name is Karol and I am from Poland. Recently I turned 17 years old and I'm curious about the world. That's why I decided that switching my environment would be a pleasant experience. I am an open-minded person I really enjoy having talks on different topics. My biggest hobbies are skateboarding and dog training. I always loved sports, when I was 6 I joined my first football club where I played for 5 years but I got bored from football although it was really great I decided to switch up my sports and find new interests. After that I picked up on skateboarding since some of my friends from school started skating as well so I thought that would be interesting, and sure it was. Now it's my 4th year of skating. I met a lot of people and got some closer friends from different ages. The beauty of skating is that it doesn't judge you, all that matters is your skills.

My 2nd hobby is taking care of my dog, he is called Odie or Odysseus he is a male border collie that I trained since we got him. Border collies are said to be the smartest race of dogs and Odie is so well thought of that my friends like to throw some jokes like that my dog is smarter than I am. My Odie is the best-trained dog in my area, it is common for me to spot some passer by's that stop just to admire tricks that I taught my dog.
