## Student Letter

Hi! I'm Klara and I'm 15, this year 16 in august. I'm from Poland. I'm going to first class in highschool. I'm definitely helpful, responsible and somewhat independent person. I enjoy spending time with my friends and family. I love traveling. I'd like to visit as many places as possible in my life. I learn very quickly. I love meeting new people and I make new friends very quickly. I think I'm hard-working, because I go to stable every day after school. I have a horse. it's very big responsibility, but it is easy to handle for me. I come home after the stable and I study for two or three hours. That's enough for me. Horse riding is my the most important passion. I love this! I would spend a lot of hours with horses.

My horse adventure began 10 years ago. Then I was 6. I went with my friend to her horseriding lesson. I was growing up with horses. When I was 7 I went to my first horseriding lesson. I immediately felt that this was what I wanted to do. I fell in love with horses. After 5 years, my mother bought me a horse. Her name is SnowWhite and she is 18 in this year. She was my first horse and she learned me how to care for horses. In my free time I reading books, my favourite genre of books are romantic or science fiction. I don't like a historic books because in my opinion it's bored. I watching films or series, the best platform for this is Netflix. And of course I'm going to stable for a lot of hours.
