Arts: Sketching: just for fun

Languages: German (Native), English (Good / 7 years studied), French (Poor / 4 years studied)

Family: Dad (Engineer), Mom (Accountant), Brother (13)

PROGRAM

Arrival:

August 2023

Age on Arrival:

16

Duration:

Semester

Student ID:

SM23DE08-11

Allergies/Special Diet:

No / None

Religion:

Roman catholic

Student Letter

My name is Alexander, I'm a 15 year-old boy (I'll be 16 by the time I'll have arrived in the US) and I am from Germany. At the moment I visit the 10th grade in a "Gymnasium" and my favorite subjects are mathematics, physics and English. My family that includes my mother, father, brother and me are living on the countryside in the vine yards, in our own house. Since three years we live together with our Australian shepherd lady named Nala. It is the best dog for cuddling and playing.

My brother and I are usually playing videogames in our free time. We also both play an instrument. He plays piano and I the guitar. We both play not too bad and sometimes we play something together. When I play videogames I usually play with my friends, during Corona this was the only way we could spent time together, nowadays we like to go bowling, visit aqua parks or watching good movies in the cinema nearby. Besides videogames and music, I am very interested into cars, engines and other mechanical things. In my future I'd like to work with cars, engines, or computers. Maybe I'll even study that at a technical university.

I come to the United States, because I want to experience the "American Way of Life". But I know it only from my father (he's quite often for business in the US), the movies and the social media. I am very curious how you guys live there across the ocean, also I'm very interested in your culture and the daily life.
