## Student Letter

My name is Pol, I'm 16 years old, almost 17, and I live in Spain, in a little village near the beach with my mother. My father lives in a town not too far from us. He is French from Nice and my mother is Spanish from Barcelona. I was born in Nice, like my father. When I was only one year old we moved to Andorra, a tiny country in the middle of the Pyrenees between France and Spain. When I was four we moved to Spain. I speak Catalan, Spanish and French, the three of them as mother languages. Maybe I could teach you some French or Spanish in our free time!

I would describe myself as a reliable, friendly, positive and self-determined person who is interested in getting to know new countries and people. In my free time, I love playing soccer (actually, I would play soccer all day if I could), skiing in the winter, and water sports in the summertime, and this is something I will really enjoy to share with you. I also enjoy hanging out with my friends, watching new films at the cinema (I love American action films: Marvel, Fast and Furious, etc.) and travelling around the world. I love fashion, too.

Music is very important in my life. I listen to music all day, specially American music. I also started playing flute, electric guitar and drums when I was very little. But that was a long time ago.
