## Student Letter

My name is Liza from India. Second, I and my family is very much excited that I will be an exchange student who will be studying in the United State of America high school, and also living with an American host family. The organization that arranged this program for me has assigned you to be my host family and I would therefore like to introduce myself.

In India, I live in a joint family. I love my family very much. We all live together. My family always supports me. In my family, there are 10 members those are my Grandfather, uncle, aunt, my father, mother, my brother, cousin sister, and cousin brother. I used to play with him all the time and take him to market, in a park and help him with food and bath as well. He also loves me a lot and always crazy to play with myself. My reasons for choosing to spend time in the United States of America are quite simple. I love to visit other countries and meet new people. I wanted to see the culture, festivals, schooling, etc..Coming to live in the United States of America with a host family is a great way for me to improve my spoken English and live with a family in a different country and understand their culture. I would like to know more about the English language, culture and literature and therefore I have applied for this program. I am an active outdoor person and I'm passionate about dance. I am interested in the type of food that is popular in your family.
