Student Letter

Hi, I'm Vittoria. I'm really excited to be able to talk to you and can't wait to start this amazing experience. I don't think there's any need for an introduction regarding my age or my report card since it's all written in the application, but there are still a few things I'd like to tell you. Come, for example, to delve into my character in a frank and truthful way.

I have strengths but, of course, also weaknesses. I am certainly a very optimistic person, so much so that I really expect the best for this fantastic experience that awaits me; I am sociable with everyone and always cheerful, I always try to see the positive side of things leaving out the negative. I think a lot before taking a certain action, since so that this could have consequences. And, besides, I'm a lover of children and animals. When I grow up I would love to become a pediatrician and I have two little dogs, Ronnie and Maia, with whom I play very often. I'm a Labrador and I'm in love with their playfulness.

Consider being a very organized person somewhere between the negative and positive things about my character. I love making plans of my life and my day to day because it helps me focus better on the goals I have already set for my life. Among them is this journey and I am grateful to be able to share it with anyone I meet on my journey. I can't wait to meet you.
