Student Letter

I am 15 years old and i am from turkey buy I was born in japan. I am half japanese and turkish. my dad is turkish , my mom is japanese. Also I have gone to kindergarten in japan. when I was 5 years old I have came to turkey and I loved turkish culture. I am still in Turkey and I am studying high school here. I like every kind of sports but mostly I like basketball and soccer. I like and enjoy listen music, also I play music like piano and a little bit guitar. I like being outside, hanging out with friends.also I like thinking, thinking about something and later duscussing with my friends or a friend somethimes with my family.I think thinking and discussing it with other is changing the perpective to the topic very intensely. I also live with my sister and my grandma. I like them. My sister is a bit annoying but she is cute.

I am very curious about being a exchange student, to me it will be a whole new experience to me. I want see united states, see my school, go to lessons and live there. I believe it will change my perpective and add, enlarge my vision fo life. It will benefit so much in future. Also being with parents and live them will be fun and exciting. I hope I will have a sibling in host family. I would like to have a male friend because I will be able to hang out him and share my experince with him like a friend or a real sibling. I am sure that my host family will be such nice people and I will respect them and love them.
