## PROGRAM

**Arrival:**

August 2023

**Age on Arrival:**

15

**Duration:**

Academic Year

**Student ID:**

AY23TR05-11

**Allergies/Special Diet:**

No / No Pork

**Religion:**

Islam

## Student Letter

Firstly I would like to introduce myself. My name is Bartu. I'm a sixteen-year-old student and I'm studying in high school. I have an interest in technology and video games. That's why I choosed a career in these topics. I want to be a digital game designer but somewhere inside my mind say I want to be a software engineer. However, this school year, I met with a new friend and I can call him as Apple, because apple takes an important role in our relationship. My friend Apple and I have similar interests and we want to open a company that develops and publishes games but this is not the only reason for my dream career. I'm really taking fun while using my creativity. And I played video games for more than ten years. With this, I decided to find my dream career. I take my creativity and use some necessary stuff like programming or something for developing a video game. And I know that this makes me happy, I love to create some things and I'm very happy when others like what I do. Also, I have an interest in kitchen chores and I don't know why I love that. Think of it like someone can love something without a reason and this is what I live for in this situation. I love kitchen chores and mostly I love to make dessert. My desserts are not perfect but they are not bad too.

**Borderless Friends Forever**
