## Student Letter

Cześć! (cheh-shch) – That's how you say hello in my homeland. I'm an extrovert that is really open to meeting new people and most of the time extremely optimistic. I love to try new things even though I'm usually not so good at them at first but I'm fierce and creative. I have lots of friends and pretty much everyone knows me for being cheerful , energetic and full of joy. Art is the main thing about me. Drawing helps me calm down and express how I feel or see. I colored in my first coloring page when I was just 3 years old without going out of lines! It was a “Dora the Explorer” drawing. I can easily say that my personality can be compared to her character- I'm brave, talkative, helpful and same as she does- I love making new friends. Another hobby is ballroom dancing which I have done for about 11 years now. I really enjoy travelling and road trips, my favorite part about them is singing together ( I am a really bad singer) and playing road games (I always loose). I know for sure that going to the USA is my biggest chance in life. For sure it will be a chance to find life long lasting friendships. Why USA? I think it is mostly about the different education system, different morality and an “American Dream” that has always been in me. The world is so big and the doors are open to anyone if they put their minds to it, just like I did by signing up for my Dora the Explorer adventure in hope to be someone's new “daughter”. I promise to keep a huge smile on your face!
