Student Letter

My name is Katia. I'm 16. I have a wonderful family, which consists of my mother, father, my elder brother, and our cat. I enjoy outdoor activities with my family, such as camping, running, playing badminton, etc. I like spending time with my family by playing board games or just watching movies together. At home, I look after our cat, wash dishes, wipe dust, and vacuum. I am interested in dancing and I want to become a professional dancer in the future. Also I like theatre, I watch performances at home and try to imitate actors. I also like reading. My town is small and there are not much entertainments, but we enjoy spending time together. We can just have a walk and go to the cafe or stay at home and play some boarding games, watch movies, do cycling and swimming. In the future i want to become a successful person. I want to bring benefit into developing my native country and then i want to travel around the world and help everyone, who need it. In America i want to try a lot of new things,such as cheerleading, lacrosse, different types of volunteering, because in my town volunteering is not common and there are too few opportunities. Also,as America is a multinational country, i want to learn how to end cultural barriers,i want to show,that everyone can be friends,despite their nationality. hough i don't know you, I already admire you. Because you take this responsibility to host a student. This means that you have a big heart and you are good people.
