Student Letter

Hello, my dear family. It sounds amazing to gain new experiences and friends in my life by living together with you. I am very excited and looking forward to these experiences. I am Fatima and i'm the girl who is known a sociable and curious person. We are 5 of us here. As a family, we love to travel to other cities and explore interesting places in our own city. We also like to spend time with my grandparents and relatives. I enjoy to cook and go shopping with my sister and mother. Keeping my room tidy is my main responsibility. I often help my younger brother with his studies. I love to cook, especially sweets with different recipes. listening to music and watching movies is one of my favorite pastimes after hard lessons. American and Spanish films are my favorite. I love to meet people and communicate with them. With my friends here, we go for walks and we do volunteering. We read books and discuss them. The city where I live is in a mountainous area, so the weather is cold, but the clean air and greenery make me love my city very much. My dream is to become a lawyer and defend people's rights. I have theatre experience here, I want to develop it more widely and continuously. Because of loving to spend time with my family and friends, going on weekend trips with you, cooking, taking pets for a walk, going to the cinema, volunteering are invaluable things that American experiences will bring to me. I am excited to introduce you our national dishes.
