## Student Letter

I am really happy that you are considering taking me in as your guest and I would like to thank you very much in advance for that. I am Felix and if I had to describe myself in three adjectives, I would say funny, happy and confident. Here in Germany, I live with my father, my mother, my little brother and my really cute dog. I also have a sister, who has already moved out. My life here in Germany on the one hand is really calm but also gets quite active. I do a lot of sport myself, such as basketball, running and I also go to the gym a lot. I also like doing things with animals and especially with pets like cats and dogs. Moreover, I often do things with friends, for example we like to do city trips to explore or watch a movie or go out to eat together. I am thrilled that you are making this time in another country possible for me! I am very much looking forward to the American culture and what it is like in a different country with a different language and new people. Discovering new friends and new hobbies is a big goal that I have set for myself, since I am a very open person who likes to meet new people. There is really nothing that could scare me off for my year abroad and I am excited to explore this great opportunity. So I would like to once more thank you very much and I'm looking forward to getting to know you!
