Student Letter

thank you so much for giving me this opportunity to spend my time abroad with you! My name is Alessio, and I live with my father, my mother, my little sister and my little brother. I like my family life. It is amazing doing things with them. I am a person who quickly builds strong bonds with others. I would also say that I am a person who is really organized. I love to play soccer outside, and I love playing the piano. We play a lot of soccer outside, or we go shopping. Going outside and playing sports with friends when it is good weather outside is amazing.

So, why have I decided to do an exchange year? I have dreamed about the US for so many years. For most of us Europeans is being in the US a big dream. Experiencing high school life in a cool high school is one of my biggest dreams too. The fact that I will be in a new family with new people is also very exciting for me. The school system in the US is so different from our system. The US has way more subjects, which I am so looking forward to. The country offers also way more sports to do in school. I hope that I maybe get to know a new sport that I really like. I am glad that you, my future host family gives me the chance to live life in the US and I hope we have unforgettable times together. Thank you again and I can't wait to meet you!
