Student Letter

Hi family, I'm Amanda. I live in the best city, my house is in front of the beach and 15 minutes away I am in the mountains. In Summer, I stay all the day in the swimming pool and swimming in the beach. In Winter, I like to run along a trail that is next to the beach. With my friends, I like watch movies, go out for dinner, make cookies. Also in my family they are all artists. I love travel, I have never been sure of the career I want to do, but I discovered International Business, I like the economy, the administration and obviously travel. My favorite subjects are PE and Economics, I have already lived two years in the United States (Dallas), I want to be an exchange student because the experience I lived was very short for me and to improve my English. And, I would like to improve as a person as much as possible. The relationship I have with my family is very good, we listen to each other, we make each other laugh and there is my safe place where I always be like I am. In a friendship I always look for a person has to be very positive, likes the adventure, a person that makes good things to other people and always want to help others, and the last thing is that I can be a person who can talk things out. I can only thank you for everything you are going to do for me, such a beautiful and unforgettable experience. I am going to give my best and I know that you will too. I hope to meet you soon and that you like my culture and my way of being.
