AY24TR03-11

Allergies/Special Diet:

N/A / None

Religion:

Islam

Student Letter

My name is Ece. I love my school, I have a lot of friends and they are all great kids. I am a social person so hanging out with my friends is one of my favorite activities. We love singing. I have a little cat and every night she is coming to my bed, we are sleeping together. Every sunday, I am watching the Formula 1 races with my dad and after we are shopping with my mother. I've been playing volleyball for eight years. I am playing piano for nine years. I have piano lessons once in a week. Theater is a great passion for me and I want to continue to do it for the future. I want to be an actress since I was a little kid. I used to go to a french school since I was a little baby so my french is good. I start to learn english when I started high school and now my french and my english levels are same. I love traveling, learning new languages, meeting new people or seeing new cultures. That's why I am so exited to be an exchange student in the USA. I think that is the greatest oppotrunity that could be. I think my best year will be my exchange year in the USA. I am looking forward to meet you and spending the whole year with you. I hope we will spend great times. To conclude, when I turned back to my country, I want to became a more mature girl. I have to come with a great story, I hope USA will be my milestone.
