## Student Letter

First of all, I want to say thank you that you give me this opportunity to fulfill my dream of doing an exchange year in the USA. My name is Jonathan, I'm 16 years-old and I'm from Germany. My hobbies are playing table tennis and volleyball. I also like playing other kinds of sport, like soccer or going swimming. As you see, I'm a very sports enthusiastic person. But I not only like doing sports, I also like spending time with my family. I live with my mother, my older sister, my younger sister and with my younger brother. We often play games together or just watch a movie. I also enjoy spending time with my friends. How did I get the idea to do an exchange year? I got the idea when my older sister did one two years ago, but I had thought about doing an exchange year even before that. Not only did I want to improve my English skills, I also wanted to learn something about the American culture and how life looks like on the other side of the world. I always thought that it would be nice if I could see a total other culture and maybe be part of it for a while. And since I never visited a country outside of Europe, I thought this might be the best chance for me. That's why I'm already very excited to travel to the USA and meet new people. I hope I will find new friends and that we will have a great time together, that we can create nice memories and that we share all these experiences forever. That's it in short about me and my life, and I hope you liked my letter.
